

Affordable Housing Report. November 4th, 2020

The survey was to be taking place at this time but was postponed due to staffing issues at Community First. A further decision has been taken to postpone the survey until January 2021 because of the nationwide lock down beginning Nov 5th due to Covid19. Part of the process of the survey is the dropping off of flyers at each house in the village in order to have maximum coverage. If this is a problem in January, the Council will have a full mailing list of each house, if not the name of each occupant, so we could mail the flyers.
