4. Oxfordshire County Council Highway Updates

- Bletchington Road/Gallosbrook stream verge: OCC have patched up the eroded verge with soil and have placed a concrete channel directly into the stream where the verge had eroded close to the road. An additional drainage gully further down the road has also been cut into the ditch to aid quicker runoff.

- Overhanging vegetation on Bletchingdon Road – this issue was reported following the last Parish Council meeting and a team has visited already and pruned the vegetation back.
- Knowle Lane/B430 corner: ditch fronting B430 not draining properly with potential risk of flooding to adjacent residential property. Previously looked at issue by OCC. Highlighted to OCC – investigating issue but received no further information and have enquired again for an update.
- Enquired of OCC Highways department if can obtain some flooding signs or if allowed to purchase them so we are prepared for future flooding events and can highlight the issue to road users. I have received no reply so have chased again.
