

## Report on Great Wolf Appeal. February 3<sup>rd</sup> 2021

The inquiry will be live streamed on the Planning Inspectorate YouTube Channel using the following link:  
<https://www.youtube.com/channel/UCQqDetL1R5aRgbNm8PDViNw>.

Please do regularly tune into the live stream – this helps to show how important this is to the local community. A decision is expected two to three months after the inquiry ends.

The Planning Inspectorate and Sasha White our QC have asked us to coordinate members of the public (around 25) to speak at the Inquiry on 11<sup>th</sup> February (5.30pm to 8pm). We are compiling a balanced number of participants to cover different topics.

This session will also be live streamed – again please tune in and show support if possible. There will also be other opportunities for members of the public to speak – these details are given in recent letters from CDC to all those who have written objection letters.

We have been greatly impressed with our team's professionalism and commitment. All Proofs of Evidence were submitted to the Inspector and shared with the 3 parties last week. Working with our advisers we continue to closely examine Great Wolf's submissions which we think are fundamentally flawed.

All Proofs are now available on Cherwell's Planning Portal - but please note they run to many thousands of pages!

To date 34 parishes have joined the Parishes Against Wolf group. This level of support is amazing and should indicate the strength of feeling in the community against the proposal.
