

Cherwell Parish Liaison Meeting. November 11th, 2020

The semi-annual meeting was held on November 11th and the seminars usually associated with it occurred via Zoom from November 9th – 12th. Topics covered were all valuable for us including:

- Covid19, How it is affecting our community and Cherwell's response.
- Community Emergency Plans and Neighbourhood Support. This was a lengthy report but very valuable advice was given. I recommend we put this as an item on the January meeting so we can discuss a draft of WOTG's Emergency Plan.
- Census 2021 – We were encouraged to raise the profile of this in the new year. The data given will help with our planning for the next ten years. There was a plea for workers for the canvassing.
- Elections 2021- The big news is that it was announced WOTG would have the NP Referendum on May 6th!! In that same period there are a number of important elections taking place and so we will be asked to advertise this to our village. .

Seminars

1. Planning – I didn't drop into this one. Did anyone else?
2. Street Naming Seminar – DB attended and found the info helpful. I raised the question of Southfield and CDC was surprised we hadn't been asked to participate in the naming of the streets. They have since been in touch and have had a response, many thanks to the work Henry sent around the PC.
3. Highways Surgery – anyone attend?
4. Elections and Parish Procedures – anyone attend?

Fortunately, I was given permission to have a moment to discuss the Great Wolf Appeal and ask for support from other parishes. This got some helpful traction from parishes.

Slides and presentations are/will be available from CDC.
